DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 1, 4-9, 11-13 and 25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1 and 12, it is unclear if or how the “flow aid” distinguishes over the titanium dioxide component.

In claim 9, it is unclear if or how the “filler” distinguishes over the titanium dioxide or the flow aid components per the base claim.

Claim Rejections - 35 USC § 102/103

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1, 6, 7, 9, 12 and 13 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Japanese 6-248088 (English translation) as per reasons of record.

Art Unit: 1711

The additional ingredients used by the reference, e.g., metal salts, etc., meet the presently claimed generic “flow aid” component.

5. Claims 1, 4-9, 12, 13 and 23 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over U.S. 4,689,364 (Mumcu et al) as per reasons of record.

The additional ingredients used by the reference, e.g., solvents, etc., meet the presently claimed generic “flow aid” component.

Claim Rejections - 35 USC § 103

6. Claims 8, 14, 15, 20, 21 and 24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Japanese 6-248088 described hereinabove in view of U.S. 6,211,266 (Weber et al) as per reasons of record.

7. Claim 24 is rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. 4,689,364 (Mumcu et al) described hereinabove as per reasons of record.

Response to Amendments

8. Applicant's amendments filed December 22, 2005 have been fully considered but they are not persuasive.

As presently recited, the generic “flow aid” component reads on the additional components described by the references.

Allowable Subject Matter

9. Claims 11, 18, 19, 22 and 25 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
